ON
STRATEGIC AND BUSINESS PLAN DEVELOPMENT

(18th – 27th June 2019 - IAA ARUSHA CAMPUS, ARUSHA)

1.0 COURSE BACKGROUND

As it is well stated by many scholars that lack of proper planning is one of the most often cited reasons for business failures. As a mitigation for the problem, institutions develop both Strategic Plan and Business Plan in order to create the combination of factors that sets the business apart from its competitors and gives it a unique position in the market. This is what is called a competitive advantage. Every business must establish a plan for creating a unique image in the minds of its existing and potential customers and other stakeholders. A company builds a competitive edge on its core competencies, which are a unique set of capabilities that a company develops in key operational areas, such as quality, service, innovation, team building, flexibility, responsiveness, and others, that allow it to vault past competitors. These are what the company does best and are the focal point of the strategy.
